### Our Patio is OPEN!!!

We're excited to announce that our patio is now open for your enjoyment! It's a tranquil place where laughter and the murmur of quiet conversation can be heard intermixed with the gentle water cascading down into the pond. Hanging baskets combined with vegetation and seasonal items makes the patio a magical place to spend time enjoying the moment.

While you're relaxing on the benches, take a moment to look at all the plants and outdoor products surrounding you. The plants change seasonally, but there's always something incredible for you to use to make your home beautiful!
